NATURAL STONE: WHAT TO EXPECT

Every piece of natural stone is quarried, not manufactured. Color, veining, shade, movement, fossils, pits and fills vary from block to block, lot to lot and tile to tile: that variation is the character of the material, not a defect. Photos and samples show a range, never an exact match. Approve the range photos and a job sample from the actual lot before ordering, inspect the delivered material before setting, and dry-lay and blend tiles from several boxes. Hardness, porosity and how a finish wears also differ from stone to stone; honed and polished surfaces will etch and show wear differently. Seal after installation and reseal periodically.
